

CLASSROOM NEWS

2A with Mrs Nibbs

October 2024

It is hard to believe the beginning of term 4 is here, and we have lots of learning to focus on as we begin our last term for the year with 2A.

English - we will be reading a variety of stories and passages, discussing their main ideas, characters, and settings. Encouraging students to ask questions and make predictions about the text, while focusing on understanding how to write a character description and build on their writing styles.

Maths this term, the students will be focusing on addition, subtraction and geometry. We will be practising adding and subtracting two-digit numbers, exploring transformation and half and quarter turns.

HASS and **Science** we will be busy designing and engaging the students problem solving and design and construction skills, while exploring technology and different materials.

Schedule

Monday: Health

**Tuesday: STEM and
Computer Lab**

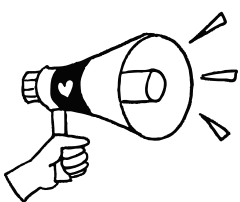

Wednesday: Music and P.E.

Thursday: Library

We will continue to encourage the students to use Studyladder and Mathletics for extending their numeracy and literacy understanding while building their confidence with exploring and engaging with technology.

This has been really successful with the class and the students have been really proud of receiving their awards earned from their hard work.
