

Year 5B –term 2 What's happening

Welcome back to Term 2! I hope you all had a restful and relaxing Easter break.

Please remember that if you have any questions regarding your child's schooling that you pop in and see me or shoot me an email.

How can parents/carers support the classroom?
Parents/Carers can participate at school by **helping with functions and activities, or communicating with teachers**. You can also be involved at home in many ways, including guiding your child/ren to manage homework and other commitments and by engaging in discussions about values and attitudes regarding education.

YEAR 5B TERM 2 OVERVIEW

MATHS

Students will apply a range of computation strategies to solve money problems and in addition will plan and calculate simple budgets. Also students will convert 12 hour to 24 hour time.

ENGLISH

Students will create a fact sheet on a natural disaster of their choice. Also students will read, view and comprehend informative texts. With this assessment being completed as a multimodal text as a class we will be working on our computer skills.

SCIENCE

Students will develop their understanding of how living things adapt physically and behaviourally to survive in their environments.

THE ARTS

Students will engage and respond to documentary drama.

HASS

Students will explore the Australian Gold rush and it's effect on the Australian community.
