#### REMINDER

HOMEWORK is given out Friday and is to be returned to school on Thursday for marking.

2C had the most amazing Homework return rate in Term 1. Let's keep it up this term ☺

### TEACHER MESSAGE

Welcome back! This term is a busy one! We have had a great start with students in our class settling back into learning routines, and excited about all our new topics.

### WHAT WE'RE

## Learning

#### ENGLISH:

Students will read and view a range of poems. By the end of term, they will create an innovation of a known poem and express a preference about a poem to their class peers.

#### MATHS:

Students will describe number patterns and identify missing elements. They will associate collections of coins and notes with their values; explain the effects of one-step transformations; and, interpret simple maps of familiar locations.

#### SCIENCE:

This term, students will investigate an important Earth resource (eg water, soil), and identify ways to conserve this resource for the future.

#### HASS:

This term, students will continue to investigate connections to places significant to them, and give reasons as to why these places should be looked after for the future.

#### HEALTH:

Students recognise how a person's strengths and abilities contribute to their individual identities. They identify own and others' strengths and achievements and create a personal picture book.

### Weekly SCHEDULE

**MON:** PBL Focus
